Minha

Full Stack Developer

minha-muhammad | minhaghulammuhammad@gmail.com | MinhasPortfolio | +92 3146842477

SUMMARY

Passionate Software Engineering student with a strong focus on full-stack development, creating dynamic and scalable web applications using React.js, Node.js, Express.js, and database technologies. Skilled in developing complete solutions from intuitive front-end interfaces to robust backend services and RESTful APIs. Experienced in converting Figma designs into responsive, user-friendly applications while maintaining clean code, efficient architecture, and optimal performance.

EDUCATION

FAST National University of Computer and Emerging Sciences 2022 – 2026
Bachelor's of Software Engineering

EXPERIENCE

Junior Full Stack Developer — Webix Solutions August 2026 – Present

- Engineered production-ready web applications by building responsive frontend interfaces and robust backend APIs, ensuring seamless full-stack performance across all devices.

UI Developer — Webexe July 2024 – Sep 2024

- Developed responsive, client-ready WordPress themes and integrated frontend plugins using HTML, CSS, and JavaScript to ensure cross-browser compatibility and smooth cross-device user interactions.

Frontend Developer — Digital Genei June 2025 – Aug 2025

Designed Figma interfaces and engineered fast, responsive React.js and Tailwind CSS applications using performance hooks and code splitting for a seamless, cross-browser experience.

PROJECTS

- **Jooblie — Multi-Portal Job Board & Hiring Platform**
  Developed a full-stack recruitment platform using React, Node.js, Express.js, and Supabase (PostgreSQL). Built role-based authentication, RESTful APIs with Zod validation, resume parsing for skill extraction, a candidate hiring pipeline, and role-specific dashboards for seekers, recruiters, and admins.
- **Zelvomart — E-Commerce Platform & Admin Management System**
  Developed a full-stack e-commerce platform using Next.js, React, TypeScript, Node.js, Express.js, Prisma, and PostgreSQL (Supabase). Built JWT authentication with 2FA, role-based staff permissions, idempotent checkout supporting COD and NayaPay, PostEx courier integration, Cloudflare R2 image storage, and Meta and TikTok marketing event tracking.
- **Resilient Minds Foundation — Mental Wellness Non-Profit Website**
  Built a responsive multi-page website using React 19, Vite, React Router, and Tailwind CSS. Developed an accessible component library featuring FAQ accordions and a mobile navigation drawer, validated inquiry and donation pickup forms, and integrated asynchronous email submissions with loading and error states.
- **CAB Medicare — Clinic & Dispensary Management System**
  Developed a full-stack clinic management system using React, Next.js, TypeScript, Node.js, Express.js, and MongoDB. Built JWT authentication with bcrypt, patient and visit REST APIs with Zod validation, medicine autocomplete via MongoDB aggregation, profit analytics with CSV export, and print-ready prescription generation.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, Java, C/C++, SQL
Frontend	React.js, Next.js, Tailwind CSS, Bootstrap, Framer Motion, Three.js, Figma
Backend	Node.js, Express.js, NestJS, FastAPI, RESTful APIs, JWT
Databases	PostgreSQL, MongoDB, MySQL, Redis, Supabase
Cloud/DevOps	Azure, Docker, Kubernetes, CI/CD, Linux
Tools	Git, GitHub Actions, Postman, Jenkins, VS Code, Kaggle
